## Weekly News

February 17th 2023

### What have we been up to this week?

We have been looking carefully at how things change and using lots of lovely language to chat about our observations this week. At the beginning of the week we thoroughly enjoyed measuring out different ingredients, using a sieve, mixing and creating some tasty heart shaped biscuits. We also noticed how the clay changed when it dried as we created some special valentine's hearts. There has been lots of talking about different shapes with curved edges; we have been spotting hearts, circles and even oval shapes! The story 'Rosie's Walk' inspired lots of questions about the illustrations which has prompted some lovely conversations.

### Welly Wednesday

We were delighted to spot that our planted apple pips and carrot seeds have started to grow tiny green shoots above the soil this week. It was also very exciting to discover some wriggly worms outside!

### Super Sounds

This week we have been using different instruments to tap out the 'beats' that we can hear in different words. We have also been using instruments, as well as our voices, to create different long and short sounds.

### Songs and Rhymes

We have thoroughly enjoyed singing 'There was a Farmer who had a dog and Bingo was his name'. Preschool loved clapping, tapping and jumping to accompany the words!

### Wow Moments

Well done Alfie and Madison for being so responsible when you have been walking in and around school; it is lovely to see you both listening carefully!
